Build a ReturnPath Pilot

An exploratory planning exercise, not an implementation commitment.

1. Who would participate?

Population: _____

Potential facilitator: _____

Person coordinating the program: _____

_____

2. How would it work?

Group size:	☐ 6-8	☐ 9-12	☐ 13-16	☐ other: _____
Meeting frequency:	☐ daily	☐ 2-3x per week	☐ once a week	☐ bi-weekly
Location or delivery:	☐ in person	☐ hybrid	☐ virtual	
Enrollment approach:	☐ closed cohort	☐ rolling enrollment	☐ one-on-one	☐ other: _____

How ReturnPath would fit alongside services already running: _____

Accountability Partner Approach

☐ facilitator-assigned partners ☐ participant-selected partners ☐ to be determined

How could daily accountability check-ins fit into your program?

A brief check-in after completing the daily reading and workbook writing.

_____

_____

_____

3. What Would a Successful Pilot Look Like for Your Organization?

Think about participant engagement, progress, organizational fit, and what would make you want to continue or expand the program.

_____

_____

_____

_____

_____

ReturnPath's evaluation framework includes attendance, completion rates, established recovery assessments, and participant feedback collected through partner organization forms and Workbook tear-out pages.

What would your organization need to know before considering a pilot?

_____

_____

_____
